# NOW ENROLLING FORENSIC SUPERVISION TRAINING COURSE

*Tuition only*  
**\$749!**

## About the Course

This 40-hour course is designed to provide forensic supervisors of varying levels of experience as well as aspiring leaders the knowledge and tools needed to effectively manage the demanding expectations of a forensic unit by utilizing interactive lectures and hands-on activities.

## Registration

To register for this course, visit [www.gapscience.com](http://www.gapscience.com) and complete the registration form under "Supervision - Denton". Only 30 seats are available and this class will fill up quickly—be sure to submit your registration today!

## COURSE DESCRIPTION

- Many organizations do not prepare new supervisors for their leadership positions and don't offer guidelines on how to effectively lead and manage a team, leaving them to learn their roles through trial and error. Forensic Supervisors, in particular, can often find themselves promoted into positions where they oversee several units, some of which they may have very little knowledge of; in essence, they are tossed into a realm that they are unfamiliar with and unprepared for, often without no mentor inside their agency, in their field, to help guide them
- This course is designed to help those who desire to lead or are already leading Forensic teams in any capacity. This course will help you to develop your leadership style, manage and measure the performance of your team, effectively deal with and resolve conflict, and teach you how to create and lead a high performance, high impact team.
